Profile

5th-year Computer Science and Telecommunications student at NKUA (GPA: 8.44/10), with experience across software engineering, machine learning, and cloud computing through internships, hackathons, and independent projects. Winner of the AI Challenge at Developer's Day 2025. Strong foundation in C, C++, Python, and systems programming, with a track record of building and shipping projects in fast-paced, collaborative environments.

Education

National and Kapodistrian University of Athens (NKUA) Sep. 2022 – Present
5th year in Bachelor of Science in Informatics and Telecommunications *Athens, Greece*

Zanneio Model High School of Piraeus Graduated on June 2022
High School Diploma, Graduated with Honors *Piraeus, Greece*

Experience

Uni Systems Internship Jun. 2026 – Aug. 2026
AI Engineer Intern *Athens, Greece*

- Started my career in AI engineering, gaining hands-on experience with practical applications.
- Developed an evaluation tool for AI agents and ML models designed for pre-deployment quality checks and ongoing monitoring after release. It helps evaluate performance across real scenarios, supports metric selection, generates inputs from the agent itself, captures user feedback, and brings together case generation, review workflows, and result analysis in one place.

UniAI (Non-Profit - Student Initiative) Oct. 2026 – Present
Expertise Associate *Athens, Greece*

- Contributing to the creation and curation of educational AI content, including workshops, talks, and presentations for the UniAI community.
- Collaborating on applied AI projects within the Expertise department, combining research, programming, and communication skills to develop original material and initiatives.

Awards

AI Challenge Winner November 2025
Developer's Day by kariera.gr *Athens, Greece*

- Won first place in the AI Challenge competition, developing an innovative AI-based solution within limited time constraints.
- Designed and implemented a machine learning pipeline showcasing practical applications of artificial intelligence.
- Recognized among developers and industry professionals for creativity, technical skill, and presentation quality.

Volunteer Work

Undergraduate Teaching Assistant Oct. 2024 – Feb. 2025
Department of Informatics and Telecommunications, NKUA *Athens, Greece*

- Assisted first-year students in the "Introduction to Programming" course with Unix, C language exercises and debugging.
- Held office hours to help students understand core programming concepts.
- Collaborated closely with the course instructor, discussing teaching approaches, course material, assignments, and lab exercises to enhance the learning experience.

ICTAI Volunteer November 2025
International Conference on Tools with Artificial Intelligence (ICTAI) *Athens, Greece*

- Volunteered at ICTAI 2025, contributing to initiatives promoting research and innovation in artificial intelligence.

Participations

Makeathon 2026 Participant May 2026
UniAI Makeathon 2026 *Athens, Greece*
- Developed HELIO, an automated environmental risk assessment app using machine learning.
- Project available on GitHub: github.com/KostasGeorgako/HELIO

TechBiz Hackathon Participant Mar. 2026
TechBiz Hackathon *Athens, Greece*
- Developed a tool leveraging satellite data to assist insurance agents in accurately calculating insurance premiums.

Makeathon 2025 Participant May 2025
UniAI Makeathon 2025 *Athens, Greece*
- Developed StyleEra, a fashion-focused AI app for virtual try-on and recommendations.
- Project available on GitHub: github.com/KostasGeorgako/StyleEra

Technical Skills

Programming Languages: C, C++, Python, SQL, Java
Core Expertise: Software Engineering, Low-level C Programming, Algorithms & Data Structures, Systems Programming, Cloud Computing
Artificial Intelligence: Machine Learning fundamentals, Neural Networks, Bot services, Cognitive Services, Model Training & Evaluation (Python, scikit-learn, TensorFlow)
Databases: Relational Database Design, SQL Query Optimization
Developer Tools: Git, Linux/Unix, Visual Studio Code, GCC, Azure (Certified), Google Cloud

Soft Skills

Communication: Developed strong communication and interpersonal skills while working in the hospitality industry, effectively engaging with diverse customers and team members.
Teamwork: Collaborated efficiently in both academic projects and fast-paced customer-facing environments, adapting to group dynamics and shared goals.
Problem Solving: Approach challenges analytically and calmly, from coding to resolving customer issues under pressure.
Adaptability: Comfortable adjusting to new technologies, workflows, and environments while maintaining performance and composure.

Languages

English: C2 (Michigan Proficiency)
German: B2 (ÖSD Zertifikat)
Greek: Native
