PROFILE

Motivated Computer Science student at the National and Kapodistrian University of Athens with a strong foundation in C, C++, AI, Machine Learning, Cloud Computing, Python, and software engineering principles. Although I am at an early stage of my career, I am eager to grow my skills through real-world projects and collaborative environments. My experiences in volunteer teaching, participation in coding competitions, and customer service have strengthened my communication, adaptability, and teamwork skills — and I'm always ready to learn new programming languages or technologies whenever a project calls for it. I am particularly interested in artificial intelligence and its real-world applications.

EDUCATION

National and Kapodistrian University of Athens (NKUA) <i>4th year in Bachelor of Science in Informatics and Telecommunications</i>	Sep. 2022 – Present <i>Athens, Greece</i>
Zanneio Model High School of Piraeus <i>High School Diploma, Graduated with Honors</i>	Graduated on June 2022 <i>Piraeus, Greece</i>

EXPERIENCE

Uni Systems <i>Junior AI Engineer Intern</i> Started my career in AI engineering, gaining hands-on experience with practical applications.	Jun. 2026 – Present <i>Athens, Greece</i>
--	--

AWARDS

AI Challenge Winner <i>Developer's Day by kariera.gr</i> - Won first place in the AI Challenge competition, developing an innovative AI-based solution within limited time constraints. - Designed and implemented a machine learning pipeline showcasing practical applications of artificial intelligence. - Recognized among developers and industry professionals for creativity, technical skill, and presentation quality.	November 2025 <i>Athens, Greece</i>
--	--

VOLUNTEER WORK

Undergraduate Teaching Assistant (Volunteer) <i>Department of Informatics and Telecommunications, NKUA</i> - Assisted first-year students in the "Introduction to Programming" course with Unix, C language exercises and debugging. - Held office hours to help students understand core programming concepts. - Collaborated closely with the course instructor, discussing teaching approaches, course material, assignments, and lab exercises to enhance the learning experience.	Oct. 2024 – Feb. 2025 <i>Athens, Greece</i>
ICTAI Volunteer <i>International Conference on Tools with Artificial Intelligence (ICTAI)</i> Volunteered at ICTAI 2025, contributing to initiatives promoting research and innovation in artificial intelligence.	November 2025 <i>Athens, Greece</i>

PARTICIPATIONS

Makeathon 2026 Participant <i>UniAI Makeathon 2026</i> - Developed HELIO, an automated environmental risk assessment app using machine learning. - Project available on GitHub: github.com/KostasGeorgako/HELIO	May 2026 <i>Athens, Greece</i>
TechBiz Hackathon Participant <i>TechBiz Hackathon</i> Developed a tool leveraging satellite data to assist insurance agents in accurately calculating insurance premiums.	Mar. 2026 <i>Athens, Greece</i>
Makeathon 2025 Participant <i>UniAI Makeathon 2025</i> - Developed StyleEra, a fashion-focused AI app for virtual try-on and recommendations. - Project available on GitHub: github.com/KostasGeorgako/StyleEra	May 2025 <i>Athens, Greece</i>

TECHNICAL SKILLS

Programming Languages: C, C++, Python, SQL, Java

Core Expertise: Software Engineering, Low-level C Programming, Algorithms & Data Structures, Systems Programming, Cloud Computing

Artificial Intelligence: Machine Learning fundamentals, Neural Networks, Bot services, Cognitive Services, Model Training & Evaluation (Python, scikit-learn, TensorFlow)

Databases: Relational Database Design, SQL Query Optimization

Developer Tools: Git, Linux/Unix, Visual Studio Code, GCC, Azure (Certified), Google Cloud

SOFT SKILLS

Communication: Developed strong communication and interpersonal skills while working in the hospitality industry, effectively engaging with diverse customers and team members.

Teamwork: Collaborated efficiently in both academic projects and fast-paced customer-facing environments, adapting to group dynamics and shared goals.

Problem Solving: Approach challenges analytically and calmly, from coding to resolving customer issues under pressure.

Adaptability: Comfortable adjusting to new technologies, workflows, and environments while maintaining performance and composure.

LANGUAGES

English: C2 (Michigan Proficiency)

German: B2 (ÖSD Zertifikat)

Greek: Native
